FIGURE #4: Maturity / soft skills

Clear, direct communication at all times - especially when an important issue to be raised

Calm under pressure

Adaptability to change

Identify and maintain boundaries - both personal and/or those of the organisation that I work for

Safer space, diversity & inclusion training

APPENDIX: Selected examples of skills/projects

Studio Sound Engineer

I'm a sound engineer with over two decades of experience arranging, producing, recording, editing, mixing and mastering music and other audio related multimedia.

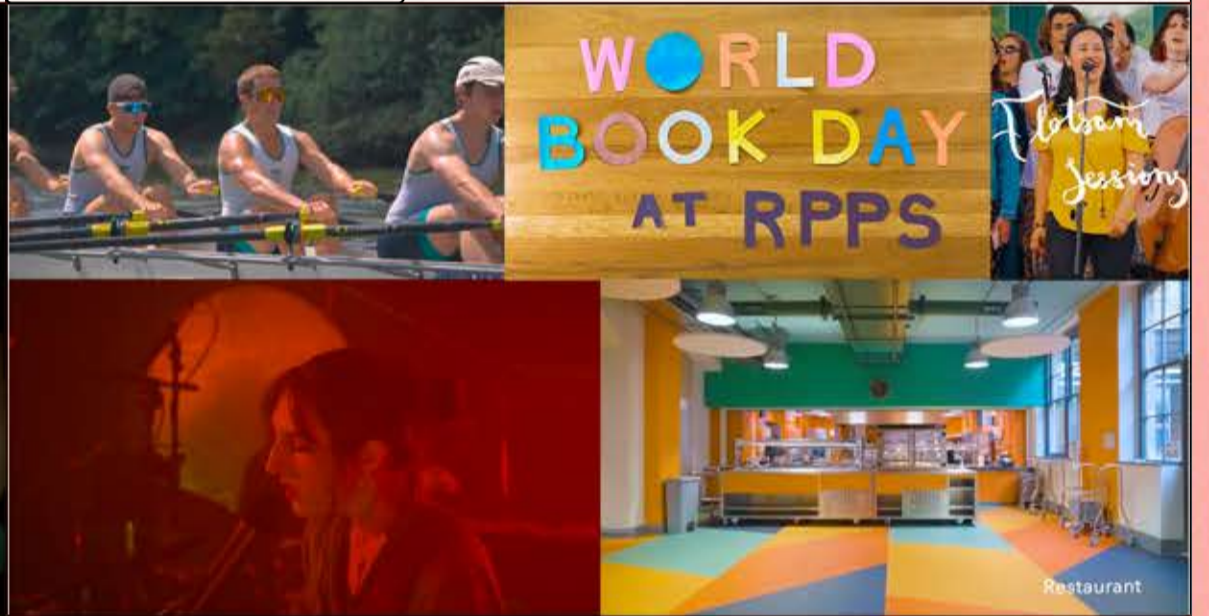

Live Sound Engineer

I developed my live sound mixing skills during my role at Gardener Schools Group then moved on to become Deputy Head of Sound at Vault Festival where I rigged venues and worked on many shows.

Short Film Maker

In 2023 I wrote, directed, filmed and edited my own short film "Apply Yourself", shot on location in Helsinki, Finland. The film is being screened at Tampere Film Festival in 2024.

Corporate Videographer

My role at Gardener Schools Group developed into a Media Manager role in the Marketing department, where I had the opportunity to teach myself how to produce corporate videos and social media content.

Choreograph SONG x SCENT

I am a self-taught perfumer of more than 10 years. Choreograph SONG x SCENT is an award winning perfume and music project I launched in 2021. I produced the music, scent and packaging design.

Recording Studio Build

In 2016 I was lucky to have the opportunity to build a small sound proofed recording project studio in my garden. My design is decoupled from the ground floating on rubber feet and is double walled.

Eco-lodge Build (volunteer)

In summer 2015 I volunteered on the build of a straw bale eco-lodge; the Bluebell Centre (Perivale Nature Reserve). I learned key construction skills which I later put to use on my home studio build.

Contaminated Land Consultant

After completing my MSc Hydrogeology I joined global environmental company WSP as a consultant. I worked on various projects between 2012 -2015 including the London 2012 Olympic Park.
